JOY CARPETS EXPANDS TOTALLY TILES® CARPET TILE COLLECTION

Company introduces 6 large-scale patterns for commercial interiors.

Fort Oglethorpe, GA – Joy Carpets & Co., a leading manufacturer of specialty flooring for commercial and hospitality environments, enhances its successful Totally Tiles® Collection with 6 exciting carpet tile introductions for 2019.

These introductions incorporate large-scale patterns and multi-tile repeats, broadening design options and minimizing the visual “rowing” that can often occur when viewing small carpet patterns in large, open areas.

“We are excited to offer this unique flooring option to the industry,” said Nick Dobosh, President. “I believe it will change the way our customers view flooring, and it will create additional options when designing or remodeling a business interior. These exciting new products are another example of our ongoing commitment to addressing customer needs.”

Designed for use in high-traffic, commercial interiors, Totally Tiles® has distinct advantages over traditional broadloom carpeting. Delivery, handling, installation, and removal are simple with the glueless, [StayTac™ Cushioned Backing System](#). In addition, these tiles have a guaranteed pattern match to ensure a seamless installation without the wrinkling, unraveling or seam splitting that can occur with broadloom carpet.
